

... And guarantee your customers
the highest level of
acoustic performance

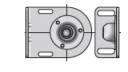

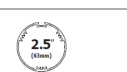

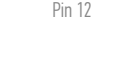

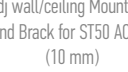

Use the right accessories and the right partners.

The brake, rotor and gear box are all specially designed to absorb sources of noise. The Sonesse® range includes specific silence accessories, helping you to create an offer that provides maximum acoustic comfort, from design to integration.

Let the experts work together.

To meet the challenge of silence, rely on our different partners and let your customers benefit from the perfect acoustic solution.

somfy

somfy Building happiness

Choose the Somfy
Designed for
Silence label
for your customers

Silence brings well-being and comfort
which Somfy understands.

As the world leader, Somfy is committed to providing innovation that fulfills user expectations in residential and commercial buildings. With more than 100 million motors sold, Somfy continues to improve the sound quality of its motors providing powerfully smooth and silent movement. It's this added value that's a must for all interior installations.

The best choice
for silent
solutions

Rest assured that you are choosing a motor and accessories that guarantee an industry leading level of acoustic comfort.
You'll receive assistance during all stages of specification in order to offer a quiet solution for motorized shades.
Conquer new interior applications with the added value of your solutions.

ULTRA silence
is the new luxe.

In a more and more noisy and overexcited world, people are seeking for serenity & well being. Home, place to travel and place to work should restore the calm and bring people peace of mind moments. Silence is becoming the new immaterial luxe.
The time when motorization made noise is over.

Enter the ULTRA silent world. And observe the power of silence.

Share the « Designed for Silence » vision :

The true definition of
peaceful atmosphere.

Live in harmony with your environment.

Enjoy **serenity & comfort** at home.

Bring **well being & home feeling**
when you travel.

Gain in **confidence & productivity**
at work.

The perfect balance
between high quality &
technology.

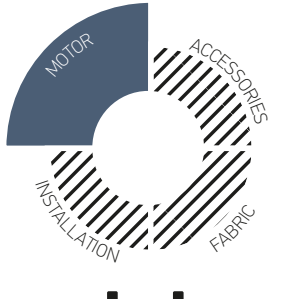

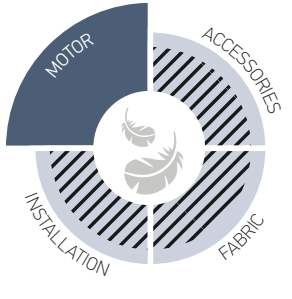

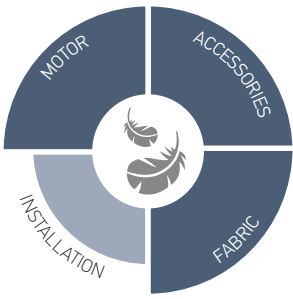

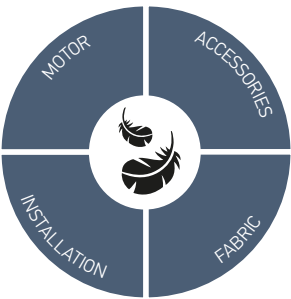

The stamped « Designed for Silence »
Somfy products provide **high acoustic
performance that is superior &
sustainable from design
to integration.**

It **guarantees silent, soft & smooth
movement.**

From design
to integration,
think silence...

Somfy's objective is to provide high quality acoustic performance, that is superior and sustainable, from design to integration. To reach the highest acoustic performance as possible, all the elements of the solution have to be though « Designed for Silence ». Think silence, think solution.

.....
High performance
acoustic

From design to integration, all
the elements are designed for
silence.

.....
Risk of
abnormal noises

Installation is as important as
the end product, the motor and
its accessories.

.....
Risk of
abnormal noises

Not thinking silent solution
can impact the acoustic
performance level.

.....
Risk of
abnormal noises

The motor alone is not enough.

In order to get the best benefits from the Sonesse® range, please check :

- To eliminate any play between parts.
- To use accessories specifically « Designed for Silence ».
- To select a fabric without any "abnormal noise".
- To carefully install the solution.

*Sound pressure at a distance of 1 m from the corner product at nominal torque / ** Values supplied for 230 V - 50 Hz, excluding Sonesse 30° values / *** 230 V - 50 Hz / 120 V - 60 Hz / 220 V - 60 Hz / 100 V - 50/60 Hz

..... ≤ 45 dB(A) ≤ 38 dB(A)
